

2017 Super Late Model Tire Rule Burn Off Phase

With the 2017 season coming up in the next couple of weeks we wanted to put out a burn-off phase for the existing Late model tires in circulation. We will be allowing FOUR (4) completed races to run your previous year tires on the rear. After those 4 completed races you will only be allowed to run the BIG BLOCK D-55 cut up tires on the fronts only the remainder of the 2017 season. NO WRS-2 SMALL BLOCKS. ONLY D-55

Example: If Race 1,2 and 3 are rained out then races 4,5,6, and 7 will be the 4 completed races.

For any questions please contact Jerry Schram at 360-518-2590

WHEELS AND TIRES

MAX 14" wide wheels

Hoosier D 55 spec, siping and grinding ok.

Absolutely no chemicals to be used on inside or outside of tires. If you need lubricant to your seat your tires on the bead, use soap and water. Random samples of tires will be sent off to a laboratory to be analyzed. If the sample is found to be chemically altered, you will be disqualified, fined and suspended. Fine amount and suspension length to be determined.
